

K4I Forum Governing Board Working Breakfast

European Partnerships and Missions under Horizon Europe

Tuesday, 15 October 2019

08h00 – 09h30

Members' Salon, European Parliament, Brussels

Hosted by Maria Da Graça Carvalho, MEP, K4I Forum Chair

Description

A successful implementation of Horizon Europe requires a continued dialogue and cooperation among K4I members and other European Partnerships that cover the different programme parts.

The Knowledge4Innovation Forum in the European Parliament provides a platform for close collaboration across clusters, partnerships and alongside the Missions. Working groups will be established based on reviewed priorities under the Pact for Innovation. Members of the European Parliament will co-chair the meetings and other stakeholders will be invited to contribute. First results will be presented and discussed with a wider audience at the 11th European Innovation Summit taking place from 3 – 6 February 2020 in the European Parliament in Brussels.
